OBJECTIVE

A web developer with a life-long dedication to learning. I have experience collaborating and communicating with others effectively to ensure goals are achieved punctually and accurately. I am looking for employment to improve my understanding of web development and the involved workflow.

WORK EXPERIENCE

Web Developer
Web Industrial Solutions | April 2020 - September 2021
- Launched 4 E-commerce websites built in Wordpress and PHP, tailored to meet client requirements, functionality, and designs.
- Collaborated with team members to develop plugins for the Wordpress E-commerce market.
- Coordinated with clients to understand and document their requirements and interests for projects.
- Developed and implemented features for our webstore managers, that were assigned through Jira tickets.
- Performed maintenance and data cleanup on our MySQL databases.
- Reviewed and revised existing codebase to reduce load time on the website by up to 50%.

PROJECTS

Google Books Search
- An app that allows the user to search for and preview books through the google API, which can be saved to a list for later viewing.
- Books are searched by accessing the Google API with the query term through Axios and are then displayed using a React interface.
- Saved books are handled through a combination of Mongodb and mongoose.
